

Electro-pneumatic automatic cut & strip machine

The TSC-35 is an electro-pneumatic cable stripper for large single and multicore cables. A series of easily interchangeable wire guides supplied with the machine allows you to manage and work (cut to size, stripping or stripping) unipolar cables up to 35mm² of section and multipolar cables up to 12 mm external diameter. The software of the machine allows to execute on unipolar electric cables Cutting and stripping at both ends, while on multipolar cables stripping is very important. long and stripped internal conductors.

Specifications :

Cable section : 0.5 mm² to 35 mm²
Cable multipolar : diam. maxi 12 mm
Cutting tolerance: < 0.2% of cutting length
Cutting length : de 0,1 meter to 100 meters
Speed : 2000 – 5000 pcs/h maxi
Stripping length : 0 à 150 mm
Middle stripping: YES
Blade material: high quality tungsten
99 programs / Display LCD
Power supply: 230V / 50Hz (1P + N)
Nominal power: 800 W
Dimensions: 420 mm x 515 mm x 345 mm
Weight: 57 kg
Air pressure : 6 bars
